

MecoTrainings

Acquire expertise in CEB

Training tailored to your needs

➤ Principle

Expertise is within the reach of all. For a quick start to using the system, MecoConcept offers a range of trainings tailored to each user.

➤ Advantages

- ✓ Format according to your needs
- ✓ Customized training for training centers*

➤ Training formats

- ✓ Production Kick-off, 3 to 5 days
- ✓ Full training, 3 days

* please contact us for more information

➤ Full training (3 days)

Complete training to understand the subtleties of the MecoConcept system.

Program

▪ **Day one:** from soil to CEB: how to make a great MecoBriq every time. After a theoretical introduction, you learn how to make a soil diagnosis, and then make the perfect brick!

▪ **Day two:** from the brick to a wall: how to implement the MecoBriq. History of earth construction followed by practical implementation will allow you to better understand earth brick construction.

▪ **Day three:** all the subtleties of the MecoPress and other Meco'concept machines through analysis of technical documents and practical work in machine maintenance.

Target audience

- ✓ Clients who bought the MecoPress

Goal for day one

- ✓ Understand soil
- ✓ Know how to make a soil analysis
- ✓ Know how to organize a construction site
- ✓ CEB production

Goal for day two

- ✓ Understand the different applications of CEB in general and MecoBriq in particular.
- ✓ Learn how to build and plaster a CEB wall

Goal for day three

- ✓ Understand technical documents
- ✓ Master the upkeep and maintenance of the machines
