

Prices adapted to your needs

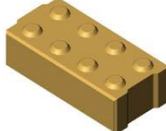

Because **each project is different** and unique, MecoConcept has **three different presses** as well as associated materials that have been developed for the specific needs of each user : multi-format, mono-format or manual, to **make the best choice** depending on your project.

Take the time to **consult the catalogue online**, and don't hesitate to call us. We're here to help.

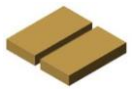

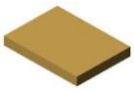

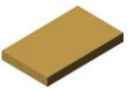

Pressing

MecoPress

With its **many molds**, the MecoPress **MultiMeco** allows you to build complex architectural projects and meet all the constraints of **modern and innovative** architecture. It is the ideal tool for ambitious and seasoned professionals.

Pressing

Monoformat Press			
Ref.:	MonoMeco	MQ62	
Shape			
Dim.		29 x 14,5 x 9 cm	29 x 14,5 x 9 cm
Charact.		Plain brick	Intellocking

The **MonoMeco** is an electric 230V / AC press with a hydraulic pump. It produces solid bricks in the **29x14.5x9 format**. A set of plates allows you to switch from **smooth bricks** for masonry to **self-locking bricks** to be assembled without mortar.

The **ManuMeco** is a manual press. It produces perforated bricks with 2 holes that are 40mm in diameter in a **29x14.5x9 format**. A set of plates allows you to switch from **smooth bricks** for masonry to **self-locking bricks** to be assembled without mortar.

Manual Press			
Ref.:	ManuMeco	MQ101	
Shape			
Charact.		Plain + 2 holes	Intellocking + 2 vertical holes

Mixing

	Mixer 300L 380V tri- 4kW	Mixer 140L 230V AC- 2kw	Mixer 55L 230V AC - 0,55kw
Ref.:	MX300	MX140	MX55
			

Three mixers are available in order to **follow the speed** of the various MecoConcept BTC presses.

All of our mixers operate on **230V / AC** current and plug into any **standard 16A** electrical outlet.

Sifting

MecoConcept has three sifting solutions adapted to follow the productivity of your installations : a **sifter or rotary sleeve** that run on **230V/AC**, or as a **manual sorting table**, **Ask us for advice for help in making the right choice.**

	MecoTri	Rotary sieve	Double Sifting table
Ref.:	MQ32	MQ50	MQ110S
			

Soil analysis

MTT	Kit Palet breaker
MQ81-A	MQ81-B
	

The **MTT** offers a complete solution for **analysing your soil**. The MTT includes the « chip breaker » Kit, and other tools to analyse your soil.

The Brick Cracker will soon allow you to ensure that the quality of your bricks conforms to the diagnosis made.

Do you use the same soil or your site is too small and you don't want to invest in diagnostic tools? Do you have any doubts about the quality of your soil?

MecoConcept can analyze your soil for you!

For a perfect mastery of our diagnostic tools, **take a "pro" training!**

Ref	Type of analysis	Description
D001	Diagnostic	Earth qualification
D002	Full analysis	Earth characterisation

Power supply

Solar, diesel or gasoline, choose the energy source suited to your surroundings.

Our energy solutions produce 230V / AC current, compatible with most MecoConcept machines.

All of our **prices** decrease according to the quantities ordered. For full pricing with transport to destination, ask for a quote!

Training

Your project is not clear and **you are still hesitating?**

Ask for the training application and come and do one of the **"pro" training** courses that MecoConcept offers **throughout the year** in France or in the Ivory Coast.

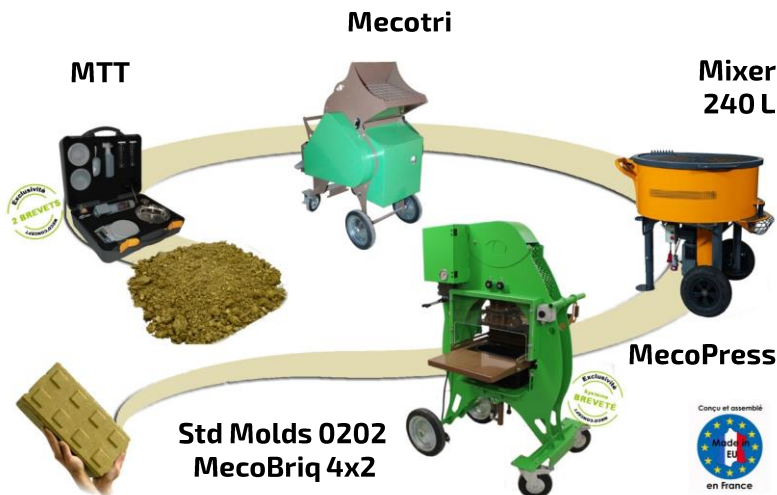

Ref	Planned training	Description
F002	"Professionnal"	3 days, in french
	Special training	Description
F004	"Production start"	5 Days, on your site
F005	"Customised"	Contact us

The training calendar is available **on our website**.

Whether you are a promoter, an artisan or a self-builder, your needs and your budget will differ. We have designed these packs to meet your needs.

Need help ? Give us a call !

The « Expert » pack

This pack has been designed for **professionals** who want to expand their production range.

The MecoPress MultiMeco, with its multiple molds, can produce up to **50m² of wall per day** resulting in **high profitability**.

The « start-up » pack

Ideal for **starting a professional activity** in earth building with a **modest investment**.

The start-up pack with its MonoMeco and related tools produce **smooth and self-locking bricks** in the **29x14,5x9 cm format**.

All of the machines run on **230V / AC** and can also run on Hélioène 1600W

The « Manu » pack

Do you have a **small construction project** and a **limited budget** ?

This pack is for you!

It allows you to go at your own rhythm on your first earth building project.

This pack is easy to resell allowing you to reduce expenses and to make a profit from your investment.

Do you prefer a pack « à la carte »? Let us know...
